PROFESSIONAL SUMMARY

I am an Information Technology (Web Programming) student at Nova Scotia Community College with experience in data analysis, administrative support and technical troubleshooting. I am skilled in Microsoft Office, digital record management and supporting users in fast-paced operational environments. I am known for strong attention to detail, clear communication and the ability to learn new systems fast. I am interested in contributing through my I.T and other skills so that I can help in saving the environment as well as gain hands-on experience supporting internal systems and administrative processes.

SOFT SKILLS

- Customer Service and client relations.
- Operations and administrative support.
- Data management and reporting.
- Team collaboration and coordination.
- Accuracy, compliance and confidentiality.
- Process improvement and organization.
- Digital tools and technology support.
- Communication (written &verbal).

TECHNICAL SKILLS

- **Databases:** MongoDB and MySQL.
- **Design and collaboration:** Figma, GitHub and Visual Studio Code.
- **Frameworks/Tools:** Docker **(**fundamentals), ExpressJS (fundamentals), Laravel (fundamentals) and Node.js.
- **Web and application technologies:** C.S.S (including Bootstrap and Tailwind), H.T.M.L, Java, JavaScript and PHP (basics), React, REST A.P.I (fundamentals) and Vue.js.
- **Productivity and other skills:** A.I-assisted web development tools, Google Workspace, Microsoft Office, Responsive website development and UI/UX fundamentals.

PROJECT CONTRIBUTIONS

WaitWell - Patient Visit Tracker
Maintainer & Developer

- Built a web application that provides real-time visibility into patient visit progress, thus, reducing uncertainty during wait times.
- Improved user experience in healthcare settings by addressing lack of communication during patient visits.
- Ensured privacy-first design by avoiding exposure of sensitive medical or personal data.
- Collaborated in a team environment to maintain code quality and support scalable development.
- Contributed to a solution with potential to reduce staff workload from repeated patient inquiries.

N.S.C.C Skillpath - Student Learning Platform (Hackathon 2026)
Documentation & Presentation Contributor

- Supported development of a peer-learning platform enabling students to exchange knowledge and earn rewards.
- Produced clear project documentation, including system concept, workflow and user experience design.
- Designed presentation materials to effectively communicate the solution to judges and stakeholders.

- Focused on addressing gaps in accessible academic support and collaborative learning.

Student Progress Dashboard (Summer Work Term Project 2025)
Front-End Developer

- Designed and implemented a responsive front-end using React and Tailwind CSS for a student analytics dashboard.
- Enabled instructors to upload and visualize CSV-based data (grades and attendance) through structured dashboards and tables.
- Enhanced user experience by simplifying complex academic data into clear, actionable insights.
- Collaborated in a team environment to align UI/UX with real instructor workflow needs.
- Delivered a functional solution meeting instructor requirements for monitoring student engagement and performance.
